

Gina Brooke, Artistic Director at Shu Uemura Counts On Intraceuticals Oxygen Infusion treatments To Apply Make Up Flawlessly, Here's Why...

"Intraceuticals Oxygen Infusion treatments are a necessity to smooth and prepare the skin for make-up application. I use hyperbaric oxygen to help diminish the appearance of fine line and wrinkles and help hydrate and clear the skin of blemishes.

Brooke works consistently with Madonna among other celebrities such as Eva Longoria, Naomi Campbell, Giselle Bundchen and Justin Timberlake.

"My philosophy is that beautiful makeup begins with beautiful skin: Glowing, beautiful skin that's dewy," says Brooke.

Patty B. Bunch's go to treatment for firm, lifted, luminous red carpet-ready skin -

"As a prominent Hollywood make-up artist, I am responsible for some of Hollywood's best known & most 'seen' faces. Great skin is the foundation for great photos & high def cameras – Intraceuticals Oxygen Infusions are my 'go to treatment' for firm, lifted, luminous red-carpet-ready skin."

"Since introducing Patricia Heaton to Intraceuticals on the set of FOX Televisions 'Back To You', her skin texture has changed radically. Maintaining Patricia's camera-ready glow is easy – one 30 minute Intraceuticals Infusion prior to the taping of every show."

2 Time Primetime Emmy Nominee
4 Time Hollywood Makeup Artist &
Hair Stylist Guild Awards Nominee
(most notably for her work on Will & Grace between 2000 & 2006)

Hollywood Make-up Artist Kris Evans believes that Intraceuticals is an essential treatment prior to make-up application -

"I have been a professional make-up artist for over twenty years. I have been involved in every aspect, from fashion, to television and feature film. My clients are used to the latest and greatest in skin care and make-up. I am so excited about Intraceuticals and how amazing this treatment makes the skin look and feel.

My most recent projects have been Dirty, Sexy Money and Sex and the City, The Movie. On Dirty Sexy Money I gave treatments to many of the cast members before make-up and there was a remarkable difference in the final results. On Sex and the City, The Movie, I gave treatments to Sarah Jessica Parker and Kristin Davis and again the results were fantastic.

I'm hooked on how beautiful the skin looks after only one treatment! It has been really helpful to hydrate the skin before applying make-up for a photo shoot or a long day on a movie set. Thank you Intraceuticals!"
